

Jumping Clay's Educational Afterschools Club!

Start a creative adventure into the magical world of 3D educational fun!

Jumping Clay is pleased to be offering another term of our fun and creative after-school club on Thursdays for the pupils of Melbourne Infant School.

Beginners are warmly welcomed.

The programme will engage children in the wonders of colour and shape, helping them to develop observation skills, creative thinking, spatial awareness, fine tune their motor skills and stimulate their senses all whilst having FUN!

The courses will be conducted in one hour structured lessons by qualified instructors and is suitable for children in **Year 1 and 2.**

This course is available on Thursdays for 10 sessions and costs £50.

Thursday 15:30-16:30		The theme this term is Summer Sports Models followed by Autumn Animals
(parent transfer between school and after school session not required)		
Week 1	21st Sept

BUILDS YOUR CHILD'S CONFIDENCE

We provide a **fun and structured** nurturing environment. Our lessons engage children in the wonders of colour and shape, helping them to **build their confidence, fine tune their motor skills and stimulate their senses** all whilst having lots of **FUN**. We love to see the **big, wide, smiles** on the children's faces

HELPS YOUR CHILD DEVELOP PROBLEM SOLVING SKILLS

Using Jumping Clay has been shown to help the '**right side**' **brain development** which in turn helps develop **creative thinking, spatial awareness and problem solving skills** - important skills for life in general and great for subjects like

Why clubs are great

PRACTISE MAKES PERFECT

We really want every child to take home a model they **love** and are **proud** of. We will help children by showing them but we try very hard not to actually do their model for them. When they do it themselves it **builds their confidence** and improves their **skill levels**. Just like learning any new

ENCOURAGE AND PRAISE

Children's imaginations are so great that sometimes the model looks quite different to them to how it looks to us adults. With **encouragement and praise** their model making skills will improve. As children become more self critical, as they mature, then their model making skills will improve

WHY ARE FINE MOTOR SKILLS IMPORTANT?

Fine motor skills refers to the small movements linked to the development of the many small muscles in the hands and fingers. Poor fine motor skills can make everyday tasks difficult, which can affect a child's self esteem and their academic performance can be compromised.
